

OXYMAT at EU Gateway Korea, 2017: Healthcare & Medical Technologies mission

By Dr. Mahesh Madyagol, Sales Manager, OXYMAT A/S

OXYMAT A/S has been selected alongside 50 other high-tech companies to take part in EU Gateway Program co-funded and managed by the European Union for a business mission to South Korea. EU Gateway is an initiative funded by the European Union helping European companies to establish long-lasting business collaborations in Asia.

As a selected company, OXYMAT A/S has participated in a one-week business mission in South Korea. OXYMAT's selection followed meticulous screening process by representatives of EU Gateway Program, intended to identify high potential companies.

'Previous missions have led to a great success with new partnerships and collaborations, and therefore OXYMAT is very pleased with this selection', says Dr. Mahesh Madyagol, International Sales Manager at OXYMAT Group.

'In Asia, there is a great need for energy efficient gas supply, and can offer this in a very cost-effective way.'

OXYMAT has taken this opportunity to establish its presence, acquire market insights into the market and joined business networking and matchmaking opportunities with relevant local business partners, as this region is becoming an important region in terms of economic growth and business opportunities.
